

AFC Bridgnorth Spartans Mission Statement

Our vision is to operate a youth football player development programme that enables AFC Bridgnorth Spartans to develop players with excellent technical, tactical, physical and social abilities.

The programme will encourage players and their teams to be technically strong and play creative football, underpinned with the core values of honesty, inclusion, commitment, respect and sportsmanship.

Alongside football we will work with the players to foster their personal, social and educational development, to enable them to find their voice and place as valued members of the local community.

Safety and Welfare of children is the clubs key objective. This runs through everything we do on and off the pitch.

Our Mission is to place AFC Bridgnorth Spartans at the heart of the community. To put in place a club structure and learning programme that enables everyone involved with AFC Bridgnorth Spartans to work together in a safe environment, to allow every player to achieve their potential, have fun, to realise our vision to develop young people through football.

In Spartans Foundation Stage (5-12) the aim is to give players equal game time and experience playing in a variety of positions.

In Spartans Youth Development Stage (12-17) player game time will reflect their commitment to the club and its values. Position specific thinking will emerge.

The key principles in both the Foundation and Youth Development Stages are that success comes from the holistic development of players and their love of the ball and the game.
